

The Benefits of a ClassBrain Membership

Since the founding of ClassBrain, we have worked very hard to develop exceptional resources for students, parents, and teachers. We are developing interesting materials to augment the curriculum that you have in place. We are *not* trying to develop a curriculum to supplant the one that you use in your school or home.

This is what one educational reviewer said about ClassBrain:

This amazingly impressive site by ClassBrain, Inc. provides valuable educational resources for students, parents, and teachers. The site is equipped with various learning activities and games for students ranging from grade levels Pre-K to 12. In addition, this site contains information on world countries and US states. Both the country and state reports are arranged in alphabetical order and provide data on history, statistics, maps, geographical information, government, economy, and much more. **This site is a breath of fresh air for those parents and teachers discouraged by the plethora of untactful Internet sites currently accessible to children.**

-The Internet Scout Report by the University of Wisconsin

When you sign up for a year's membership at ClassBrain, it only costs \$34. That's *not* \$34 *per month* but **only \$34 per year!** For less than the cost of one cappuccino a month, you can receive access to incredible resources!

AND when you sign up for a *one-year membership* with ClassBrain, your membership qualifies for your school's fundraiser. Each registered school will receive a fundraising bonus (\$3.00-\$5.00) for **each ClassBrain member** that is affiliated with their school.

At ClassBrain we will always maintain a portion of our site free for the public. However, members have a special place on ClassBrain, and will have access to a much wider range of materials. Here are a few of the new features that members will be able to enjoy:

Special Membership Materials

Only members will have *complete access* to all of our custom worksheets, puzzles, projects, and links.

Forums

Teachers and parents love to share information! Do you have a great tip for getting students involved? How about ideas for helping your students study? Perhaps you'd like to discuss educational policies in your local schools. These forums will give you the opportunity to do just that.

Albums & E-Cards

Our membership section will give you access to our albums and e-cards. The e-cards are a great way for your students to work on their writing skills. Parents and teachers will also enjoy the cost saving benefits of sending e-cards to friends and family throughout the year. We'll be posting galleries of photos that can be used on projects or customized as e-cards. Many of the images that we post will be integrated into various lesson plans and projects. You'll even be able to post some of your own images online.

High Score Boards For Our Learning Games

Only members will be able to post their weekly or monthly high scores on our games. Are you the best? You'll have to be a member to show it!

Sneak Preview

We have many other features in development for our members. Here's just a little peek at what's to come.

Personal and Event Calendars

These calendars will have everyone very excited! We know we are! You'll not only be able to keep track of your personal dates, you'll also be able to import other dates of interest. Do you need help remembering all of the school holidays and curriculum development days associated with your child's school? Perhaps you would like to be able to import the dates for local sporting events? There are more possibilities here that you can imagine! Stand tuned for updates on this exciting feature.

The Interactive Story

We're working on a program that will allow students to work on interactive collaborative stories. We'll have special rules that will apply, so that their stories can become wonderful creations. The Interactive Story should be available shortly after the beginning of the school year.

We're constantly working on more great ideas, so become a member today! Remember it costs less than \$3 per month* to become a member of ClassBrain and get the benefits of all of these wonderful materials right at your fingertips!

*One-year subscription pre-paid subscription required for special low price and to qualify for the school fundraising program.
